If Your Circumstance is an Emergency Dial 911.

Following in the footsteps of its predecessor, the #Metoo movement which calls out sexual harassment, the *Citizen to Citizen* (#C2C) public safety reporting is a social media hashing movement that focuses on those damaged by the following societal abuse epidemics:

- Domestic Violence,
- Elder Abuse,
- Child Abuse and
- White-collar crime (fraud),

Events that also require vigilante public safety reporting include the following:

- Heroin epidemic,
- Human Trafficking epidemic,
- Terrorism epidemic,
- Mass-shooting epidemic.

THE PROBLEM

What is the common denominator in these core societal plagues? That would be the abuser, and far more often than not the abusers inherit underlying pathological DSM-5 "Cluster B" traits. To learn more about DSM-5 "Cluster B" traits watch the videos at:

Additionally, #C2C includes a preemptive, or as necessary, a post damage remedy consisting of educational and technical components to forewarn potential or current victims by identifying some of the key source problems - those being maladjusted societal personality traits. Ingrained abuse traits that cause extreme hardships that often damage unsuspecting victims for the rest of their lives. Whenever possible a person needs to be preemptive. Learn the signs listed below beforehand and watch the online videos. If the damage is currently ongoing or has already occurred then warn others, this is the premise of *Citizen to Citizen* - #C2C public safety reporting.

Common abuser traits include the following insidious control tactics:

- Isolation,
- Fear,
- Intimidation,
- Bullying,
- Undue Influence,
- Blame-shifting,
- Gas-lighting,
- Grooming,
- Oppression,
- Guilt,
- Lying,
- Fraud,
- Minimization,
- Collusion and
- Cover-ups.

When eventually confronted abusers usually defer to the dastardly D's:

- Deception,
- Denial,
- Deflection,
- Debasement,
- Distraction,
- Dismissive,
- Discourage,
- Disengagement,
- Deprivation,
- Disassociation,
- Darkening,
- Disruptive,
- Disenfranchise,
- Derisive and
- Dangerous.

When caught red-handed abusers may even apologize with empty words and false promises to stop, however if they do not face significant consequence you can be certain the abuse will return. This is known as the cycle of abuse.
